

Frontiers in Organ Donation

Goals and Objectives:

1. To better understand the challenges involved in research and innovations involving donors and decedents.
2. To be informed about major advancements in donation after cardiac death.
3. To become aware of how new laws governing end of life care effect donation.

11:15 AM - 12:45 PM

Moderators:

Robert Montgomery, MD, FACS, PhD , NYU Langone Transplant Institute, New York, NY, USA
Joshua Mezrich, MD, University of Wisconsin School of Medicine, Madison, WI, USA

11:15 AM – 11:35 AM

Research Studies in the Newly Deceased

Sandy Feng, MD, PhD, University of California San Francisco, San Francisco, CA, USA
