

Instructions for Poster Presentations

- A poster session comprises simultaneous information presentations by several investigators. The presenters remain in a fixed location for the specified time period and discuss their research personally with any interested individual, using graphs, diagrams, photographs, etc. (affixed to a 4' x 6' poster board) to illustrate and communicate their findings.
- The poster board area is 4 feet high (1.2 meters) x 6 feet wide (1.8 meters). Prepare a label for the top of your poster space indicating the title and authors of your presentation. The lettering for the label should not be less than 1 ½". We will provide a printed "number" identifying each station.
- All presenters are required to include statement disclosing any conflict of interest related to your abstract. This should be visible on your poster or poster board.
- All illustrations should be made up beforehand. Remember that your illustrations must be read from distances of about 3-5 feet or more. Charts, drawings, and illustrations should be similar to those you would use in making slides, but more heavily drawn. Do not mount them on heavy board because they may be difficult to keep in position on the poster boards. Hand-lettered material should contain heavy lettering approximately 1" high for minor titles (i.e. questions, methods, conclusions, etc.) and all printing should be a minimum of ½". Do not use normal "typewriter-size type. Keep illustrations and written material simple. One or two authors should be in attendance at each poster during the presentation time. Do not allow yourself to be monopolized for an inordinate period of time by a single individual.
- There will be a Poster Presenter Check in Counter in outside Exhibit Halls C&D of the John B. Hynes Convention Center. Please pick up your poster presenter ribbon and pushpins at this counter on the morning of your poster presentation. Do not write or paint on the poster boards.

Refer to your original invitation for your poster presentation time and to view your poster mount and dismount times.

Note: Any poster not taken down immediately following the session will be removed by show management and may be picked up at the Freeman Service Desk located in the back of the hall. Any posters not picked up by Wednesday, June 8, by 9:00 am will be discarded.

You should be in attendance for the entire presentation time noted above. Your poster board area is approximately 4 feet high (1.2 meters) and 6 feet wide (1.8 meters). Prepare a label for the top of your poster space indicating title and authors. Lettering should not be less than one and one half inches. Illustrations should be similar to those you would use for making slides but more heavily drawn. There will be a Poster Presenter Check in desk located just outside of

Exhibit Halls C&D of the Hynes Convention Center. Please pick up your poster presenter ribbon and pushpins at this desk on the morning of your poster presentation.
